Orthotics are comfortable custom-fit inserts for your running or walking shoes. These inserts are used to help correct biomechanical issues that may cause lower extremity pain or dysfunction. They are especially helpful in easing pain in the feet, ankles, shins, knees, hips and the lower back.

Your visit will take 30 minutes and includes:

- Gait analysis
- Flexibility screening
- Casting of both feet
- Examination of current running shoes
- Home exercise program (if required)
- Suggestions for proper running shoes
